+41 79 489 39 59

EDUCATION

University of Bern **09/2024 - 08/2026**
M.S. Bioinformatics and Computational Biology
Boston University **09/2019 - 08/2023**
B.A. Computer Science

WORK EXPERIENCE

Novo Nordisk
Computational Biology Consultant - via Kelly Services | Remote **08/2025 - Present**

- Designed and implemented scalable data processing and modeling pipelines in Python for large, high-dimensional datasets
- Developed modular, process-oriented workflows to support iterative analysis and changing research requirements
- Designed and evaluated analytical approaches, comparing methods and interpreting performance trade-offs
- Collaborated with cross-functional teams to translate ambiguous problems into structured, testable analyses
- Communicated results and recommendations through clear, decision-oriented outputs

Novo Nordisk
Computational Biology Intern | Boston, MA **06/2025 - 08/2025**

- Evaluated and benchmarked external technology platforms, analyzing performance trade-offs across different approaches
- Processed and standardized large-scale, high-dimensional datasets into analysis-ready formats for downstream modeling
- Collaborated with biologists and data scientists to translate domain-specific problems into structured computational workflows
- Managed parallel workstreams in a highly regulated R&D environment, delivering clear, data-driven recommendations

Center for Neurological Imaging at Brigham and Women's Hospital - Harvard University Affiliated Laboratory
Research Trainee | Boston, MA **03/2024 - 10/2024**

- Developed a user-facing data exploration tool for interacting with complex, multi-modal datasets
- Designed system architecture and selected technologies with consideration for scalability and performance
- Integrated data from multiple sources into unified pipelines for downstream analysis
- Collaborated with researchers to define requirements and iteratively refine analytical workflows

MITRE
Software Engineer Intern | Bedford, MA **05/2022 - 08/2022**

- Contributed to a cross-functional Agile team delivering a minimum viable product under tight timelines and evolving requirements.
- Collaborated with engineers, project leads, and stakeholders to translate high-level needs into concrete deliverables.
- Supported the transition of early prototypes into stable, maintainable systems through structured development practices
- Gained experience working in a high-accountability environment with strong emphasis on documentation and delivery.

Projects & Research

Supply Chain Network Analysis Tool: https://af-freight-flow.vercel.app/

- Built an interactive system to analyze large-scale U.S. freight data and model supply chain dependencies
- Designed data pipelines and metrics to quantify concentration risk and systemic vulnerabilities
- Implemented disruption simulations to evaluate downstream impact across interconnected supply chains

SKILLS

- **Machine Learning:** Supervised learning (classification), model evaluation, feature engineering, statistical learning fundamentals
- **Workflow & Collaboration:** Agile/Scrum, stakeholder communication, cross-functional teams, decision-support presentations, project organization, and parallel workload management
- **Analytical & Technical Skills:** Data analysis and visualization, modular systems and pipeline-based architectures, workflow design and standardization
- **Programming:** Python, R, Bash, SQL, JavaScript
- **Other Technical**: Git, Full-stack Web Dev (JS, HTML/CSS, RESTful APIs), Bioinformatics tools

ACTIVITIES & AWARDS

NCAA Division I Athlete | Boston University Swim & Dive Team

- Demonstrated discipline, teamwork, and performance under pressure in a highly competitive environment.

Food Pantry Volunteer | Boston Cares

- Volunteer at various food pantries in the Greater Boston Area through Boston Cares.

Global Engineering Brigades Member | Boston University

- Local school chapter of international nonprofit that partners with under resourced communities to help establish clean water pipe systems.

Language Skills

English - Native
French - B1
